

REACH DECLARATION

1. Product identification

- **Product Name:** Glass mesh for ETICS with fire resistant properties

2. Identification of the manufacturer/supplier

- **Company Name:** Masterplast YU d.o.o.
- **Address:** Ferenc Bodrogvarija 172, Subotica, Serbia
- **Contact details:** +381-24-625-825, E-mail: office@masterplast.rs, www.masterplast.rs

3. Declaration of Compliance with the REACH Regulation (EC 1907/2006)

We hereby certify that the product is in compliance with the requirements of the REACH regulation (EC 1907/2006), including the obligations regarding substances of very high concern (SVHC).

4. Information on the content of SVHC substances

This product **does not contain SVHC** substances.

5. Product classification

Based on the available data, a **fiberglass mesh contains 3% antimony trioxide in a solid coating and it is not classified as a hazardous substance**, as there is no risk of inhalation.

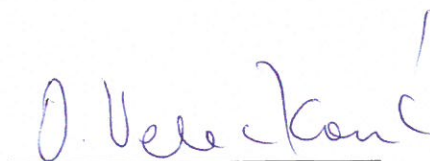

6. Classification of Antimony Trioxide in Solid Form

Antimony trioxide (CAS: 1309-64-4) is classified as a **category 2B carcinogen (H351 – Suspected of causing cancer) when inhaled as dust or aerosol**. However, **if it is in a stable, solid form inside the coating and cannot be released as dust, this classification does not apply**.

Antimony trioxide is not on the candidate list of SVHC substances.

However, if the product **fiberglass mesh** is processed (cut, drilled, ground), a minimum amount of dust may be released, and it is recommended to use personal protective equipment (gloves, masks, ventilation).

Subotica, 31.03.2025.
